GLEANERS PICNIC IS WELL ATTENDED

Was Big Success—Different Events Drew Many Competitors—Prize Winners.

So many Mishawaka people attended the annual picnic of the Ancient Order of Gleaners of Mint Arden, held at Towle's woods, Wednesday, that it was possible to imagine oneself in the busy shopping section of Lincoln highway on a Saturday night. Together with the presence of many farmers and their families, they helped to swell the numbers to considerable proportion. The weather was ideal, and the merry-making was entered into with a zest eminently peculiar to such country gatherings. Young and old alike entered into the spirit of the occasion with refreshing abandon, while the chaps from the city fraternized with the country folks, praised their babies, in the meanwhile surreptitiously dropping an advertising leaflet into the automobile, or affording baby's goat, Lemon Sheets was again master of ceremonies, and the way he acquitted himself drew forth encomiums from all over the woods. He received recognition for his trouble, however, in drawing the blue ribbon in one of the best baby contests, which was awarded his latest offspring.

All the games were well contested, and considerable talent was evident, more especially in some of the more strenuous athletic events. It was past 6 o'clock when the last number on the program was pulled off, but even then many of the pickers were loath to leave the grounds, so pleasant had been the day's outing. The band of the Woolen company enlivened the proceedings during the afternoon by discoursing a program of popular airs.

PUGH STORES COMPANY TO OPEN IN MISHAWAKA

Representative of \$20,000,000 Corporation in City Arranging Details.

The Pugh Stores Co. of Chicago, a \$20,000,000 corporation, is endeavoring to get into Mishawaka and to establish here a big general merchandizing establishment. Meyer Newfield, a special representative of the company, is in the city for that purpose, and is registered at the Hotel Mishawaka. Commadore James A. Pugh is president of the corporation, while Irving Shuman, federal sub-treasurer in Chicago, has resigned that position to become vice president in charge of the finances of the Pugh Co.

Mr. Newfield was seen by a News-Times representative Thursday forenoon, to whom he acknowledged that his mission to the city was as stated above. He states that it is not the company's intention to establish a new store in Mishawaka, but to take over a going concern, old established if possible, and to retain the present management and clerks, which of course, would have to be greatly added to. The Pugh corporation has already a large chain of such stores throughout the country, including several in Indiana, and selected Mishawaka on account of its well known trade-at-home slogan, and also of its being an important manufacturing center.

This is practically a new corporation, having been organized since January first, last, but has already some 40 new stores throughout Indiana, Illinois and Iowa. They expect to have within the course of the present year, about 1,000 stores throughout the country. They also expect to make Chicago the fashion center of the world instead of having suits and gowns of men's and ladies' wear imported from Europe. They manufacture most of their output.

The president, Mr. Pugh, is also president of the Sportsmen's club of Chicago, owner of the Disturber IV, which carries 900 horsepower, is 26 feet long, and has already made a speed of close to 60 miles an hour.

VOLUNTEER COMPANY SUGGESTED FOR CITY

Hubert Nifong, Retired Army Officer, Has Patriotic Suggestion.

Mishawaka, a city of 16,000 people has done little, if anything, in the support of the United States government in this present Mexican crisis. With troops mobilizing on all sides of her, she is content to stand idly by, contributing a few soldiers to other companies but taking no steps of her own volition.

Hubert Nifong, a retired United States army officer, and a resident of Mishawaka, living at 410 W. Grove st., has made the suggestion to the News-Times that a volunteer company of Mishawakans be enlisted in the service.

It is not the intention of Mr. Nifong to enter the company into immediate service, but rather to drill and instruct them for a while until an actual need for their services arrives. When the call does come, the men will have enough training to fit them for real service to the country.

Nifong served three years in the army, getting his honorable discharge shortly after the trouble with Huerta. He served during the Vera Cruz campaign and was discharged as a corporal in Co. G, 15th infantry, United States regular army. His three years experience makes him an ideal man for the head of such a company as he suggests.

Some help in the organization of the company would be needed, and it has been suggested that business men and citizens get behind the movement to put Mishawaka on the military map. Such a company is not an impossibility and in time of trouble would be great service to the United States. Mr. Nifong can be communicated with through the News-Times.
